PROFESSIONAL SUMMARY

Full Stack Developer building independent business management and e-commerce projects. I develop interfaces with React, Next.js and TypeScript, and REST APIs with Django and PostgreSQL. My work covers tenant permissions, transactions, inventory and automated testing. Seeking a software development role where I can contribute to web products and work with an engineering team.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS.
Backend & data: Python, Django, Django REST Framework, PostgreSQL, REST APIs, SQL.
Quality & tools: Git, Linux, Docker Compose, Django tests, Playwright, GitHub Actions.
Applied concepts: authentication, authorization, multi-tenancy, transactions and audit trails.
AI-assisted development: Codex and Claude Code; code review and validation.

SOFTWARE PROJECTS

Independent projects · 2026

Fracxion · Multi-tenant business management

github.com/nelsonvis3/fracxion-facturador · Next.js, TypeScript, Django/DRF, PostgreSQL

- Built customer, catalog, internal invoice, payment, purchase, expense, inventory and audit workflows with tenant-level data isolation and role-based permissions.
- Implemented Decimal calculations, transactions and row locks to coordinate invoice numbering and concurrent payments; payment reversals preserve the original records.
- 367 backend tests with 92% coverage and 53 Playwright end-to-end scenarios, passing in CI.

Ragnar Suplementos · E-commerce

github.com/nelsonvis3/ragnarsuplementosfsa · Next.js, React, Django, PostgreSQL

- Built the catalog, variants, bundles, persistent cart and guest checkout, with API validation of prices and availability.
- Implemented inventory reservations and delivery quotes; worked on checkout retries, a configurable Mercado Pago integration and a web panel to manage the catalog.

RoadLedger · Trip-planning prototype

github.com/nelsonvis3/ELD-trip-planner · Python, Django/DRF, React, MapLibre

- Integrated geocoding and routing with a time-based model that generates maps, stops, rest periods and printable daily logs. Educational prototype; not a certified ELD.

ADDITIONAL WORK EXPERIENCE

Hakuna Matata · Waiter | Apr–May 2026
Handled customer orders and coordinated with the dining room and kitchen teams.
Brosta S.R.L. · Cleaning and maintenance worker | Apr–Aug 2025
Prepared operational reports and helped new staff learn workplace procedures.

EDUCATION & LANGUAGES

CS50's Web Programming with Python and JavaScript · Harvard / edX · In progress
Full Stack JavaScript · The Odin Project · In progress
Front End Development Libraries · freeCodeCamp · Certificate, 2026
High School Diploma · E.P.E.P. No. 179 · 2016–2023
Spanish: native · **English:** A2, technical documentation reading
