Portfolio: nelsonsivisstum.vercel.app

PROFESSIONAL SUMMARY

Junior Full Stack Developer with personal projects and a commissioned online store. I work with React, Next.js, TypeScript, Django and PostgreSQL, implementing REST APIs, permissions, inventory and payment workflows. Looking for my first role on a development team.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend and data: Python, Django, Django REST Framework, REST APIs, PostgreSQL, SQL

Testing and tools: Playwright, Django testing, GitHub Actions, Docker Compose, Git, Linux

FEATURED PROJECTS

Fracxion · Multi-tenant business management

2026 · Personal project · Individual development

github.com/nelsonvis3/fracxion-facturador

- Built customer, catalog, internal invoicing and payment modules with tenant data isolation and role-based permissions.
- Used PostgreSQL transactions and row-level locks to protect per-company invoice numbering and balances during concurrent operations.
- Automated permission and browser-flow tests with Django, Playwright and GitHub Actions.

Ragnar Suplementos · E-commerce store

2026 · Commissioned by a local business · Pre-launch demo

github.com/nelsonvis3/ragnarsuplementosfsa

- Built the storefront and catalog admin panel, with pricing, inventory and orders managed by a Django REST Framework API.
- Integrated Mercado Pago with server-side payment verification and stock reservations for products and bundles.
- Set up an HTTPS demo on a local Ubuntu Server instance using Docker Compose and Nginx.

RoadLedger · Trip-planning prototype

2026 · Technical assessment · Individual development

github.com/nelsonvis3/ELD-trip-planner

- Built an educational prototype showing routes, a timeline and printable daily logs based on estimated driving and rest periods.
- Integrated Photon and OSRM for geocoding and routing, with 12 tests covering validation, the API contract and events crossing midnight.

EDUCATION AND CERTIFICATIONS
